

**REGULATIONS FOR CLASSES IN CONSERVATIVE DENTISTRY WITH ENDODONTICS**  
**VALID IN THE ACADEMIC YEAR 2024/2025**

1. In order to receive credit for classes on a given day, attendance at seminars and exercises is absolutely required. Absence from one of the forms of classes will result in failing them.
2. During the exercises, treatment attire - apron, pants or skirt (in white, blue or navy) is mandatory.
3. Interchangeable shoes on a light sole. The student is required to wear an identification badge with name and surname.
4. The student enters the procedure wearing headgear, safety glasses and a mask or visor and gloves (must not be black).
5. No bags, backpacks, etc. may be brought into the clinical room, cell phones are prohibited.
6. Photographic documentation may be made only with a camera available at the Clinic.
7. The assistant assesses the student's theoretical preparation for the procedure to be performed.
8. The student may begin performing the procedure, only after approval by the assistant.
9. Each stage of the student's work must be checked by the exercise instructor.
10. Students work in a binary system (four hands - active assistance) with the patient in the supine resting position.
11. Each procedure performed by the student must be described in a notebook of procedure limits.
12. After completion of the procedure, the workstation is cleaned up by a pair of students previously working at it (including preparation of small instrumentation for sterilization). Acceptance of the workstation is carried out in the presence of students by the dental assistant. Any shortages and damage to equipment shall be noted in the documentation of the Clinic.
13. Students during the exercise may leave the clinic room only with the permission of the assistant.
14. The condition for taking a colloquium is the absence of arrears. Colloquia are conducted in the form of tests, the passing threshold is 70%. Two terms of each colloquium.
15. The condition for obtaining credit is 100% attendance at exercises and seminars, passed colloquia and earned treatment minima. Students are also evaluated in terms of: ability to work in a team, attitude to the instructor and patient.
16. The condition for admission to the diploma exam in the fifth year is to pass the OSCE exam.
17. Systematic work will be promoted by including in the results of the test Diploma Examination: 5 points for those who have obtained an average of more than or equal to 4.5 from colloquia for three years of study and 3 points for those with an average of more than or equal to 4.0. The condition for obtaining additional points is the absence of failing grades.
18. At colloquia and examinations, the auricles are to be uncovered.
19. Formal attire is mandatory at exams.
20. I have been informed about the installation of the GENDEX radiovisiograph device 765DC, which is located in room 116.
21. I have familiarized myself with the occupational risks at my workstation.
22. Only students without symptoms of infection are allowed to participate in the class.
